

NEW

- Banking protection
- Free upgrades throughout the year
- Redesigned firewall
- Windows 8 support
- Google Chrome support

## F-SECURE INTERNET SECURITY 2013

### Complete protection for your computer, identity and online life.

Complete security suite with award-winning cloud-based technology. It protects you against all existing online threats and responds to new threats effectively as they appear. Easy to install and does not slow down your computer. Online chat and phone support are provided in case of any questions.

### Instant protection against all new threats

The amount of unique malware and new web sites is growing extremely fast. To make sure that you are protected against modern and complex threats, we are constantly improving our detection and protection technologies. F-Secure Internet Security 2013 can make even more sophisticated and accurate decisions based on how common certain files are.

### Advanced real-time cloud-based technology

Web traffic scanning protects you against advanced malware using browser exploits. The banking protection feature activates when you start your online banking session and elevates your security settings for extra protection against any malware attacks that might happen while you're logged in to your account. The browsing protection feature tells you clearly which web sites are safe to enter and which are better to avoid. The cloud-enabled anti-virus has multiple scanning engines that detect harmful files and malicious content on your computer. DeepGuard™ cloud computing technology ensures the fastest protection against all new threats. The features work also without a network connection.

### Redesigned, user-friendly firewall functionality

The firewall functionality and user experience have been redesigned in F-Secure Internet Security 2013. The main design principle has been providing both easiness of use and best protection. The user does not have to be a network expert.

### Key Features

#### Online Safety

- Banking protection automatically secures your computer during online banking session and protects against unknown banking Trojans
- Browsing protection blocks harmful sites automatically
- Parental control protects your children against harmful sites and provides the ability to set personalized settings for each user

#### Computer Security

- Advanced real-time cloud-based technology against viruses, spyware and other malicious attacks
- Secure user-friendly firewall to prevent hacker attacks
- Constantly up-to-date with pioneering technology
- Instant protection against all new threats
- Blocks spam and phishing email
- Protection against identity theft and unwanted mobile broadband bills

## Easy to install and use

F-Secure Internet Security is extremely easy to install and use. As the software is highly automated you do not have to understand the complexities of computer security. The user interface is based on extensive usability studies and sets a new standard in safe computer use.

## Constantly up-to-date with pioneering technology

Frequent and automatic updates and advanced DeepGuard cloud computing technology ensure the fastest protection against all new threats. Immediate reaction times and fast cures during new and emerging threats are guaranteed by F-Secure Labs working 24 hours a day worldwide.

## Software in your language

F-Secure Internet Security has a clear user interface, including an easily accessible electronic manual. The software and electronic manual are available in your language.

## System requirements

### Operating system

Microsoft Windows 8, Microsoft Windows 7, Microsoft Windows Vista, Service Pack 2 or later \*, Microsoft Windows XP, Service Pack 3 or later

### Processor

Intel Pentium 4 or equivalent

Memory: 1 GB or more

Disk Space: 800 MB free HD space

### Browser\*

- Internet Explorer 7 & 8 (Windows XP) and Internet Explorer 8 & 9 (Windows Vista & Windows 7, 32-bit and 64-bit), Internet Explorer 10 (Windows 8, 32-bit and 64-bit)
- Mozilla Firefox, two latest major versions
- Google Chrome, two latest major versions

\*Online Safety is implemented in a browser independent way and most browsers will work with it although they are not officially supported

\*High speed Internet connection to validate your subscription and receive updates. The system must fulfil Windows Vista/Windows 7/Windows 8 minimum requirements as specified by Microsoft.

Tens of millions of people trust F-Secure to protect their data at home, in the office and on their mobile devices.
